The screenshot shows the Windows Registry Editor with the path `Computer\HKEY_CLASSES_ROOT\PhotoViewer.FileAssoc.Tiff` selected. The right pane shows a list of registry values. A context menu is open over the list, and the 'New Value' option is selected. A red arrow points from the 'New Value' option to an error message box that says 'Cannot create the value. The PhotoViewer.FileAssoc.Tiff key does not have the necessary permissions to create the value.'
